

● ● ● ● ●

International disarmament arenas in which the network engages

- United Nations General Assembly
- Conference on Disarmament
- Non-Proliferation Treaty Review Conferences
- NATO Parliamentary Assembly
- Nuclear Weapon Free Zone bodies
- European Parliament

Key issues for the network

- A ban on all nuclear testing including entry into force of the Comprehensive Test Ban Treaty
- De-alerting, stockpile reductions and fissile material control
- Nuclear doctrine
- Disarmament obligations arising from treaties and other international law
- Possibilities for a Nuclear Weapons Convention including consideration of the legal, technical and political requirements for the elimination of nuclear weapons.
- Militarisation of space
- Missile proliferation and anti-ballistic missile programs.

a project of the

Middle Powers Initiative

an international coalition of non-governmental organisations with the aim to influence and assist middle power governments to encourage and educate the nuclear weapon states to commit to immediate practical steps to reduce nuclear dangers and commence negotiations to eliminate nuclear weapons.

Parliamentary Network for Nuclear Disarmament

A non-partisan forum
for parliamentarians
nationally and internationally
to share resources and information,
develop cooperative strategies and
engage in nuclear disarmament issues,
initiatives and arenas.
