

All are welcome to join us in a peaceful

HIROSHIMA COMMEMORATION

on

Monday, August 6, 2018

East Ferry Green, Jamestown, RI

12 noon to 2pm

- Bulletin of Atomic Scientists Doomsday Clock has moved 2 minutes to Midnight, as close as it has been since 1953 at the height of the Cold War.
- US Congress is considering authorization of new 'low yield' nuclear weapons, which our President may consider to be 'usable.'
- Jamestown is vulnerable. Quonset would be targeted by megaton-size weapons in a nuclear war.
- The UN has created an International Treaty to Ban Nuclear Weapons which is open for ratification by all countries. US press and politicians have ignored this initiative. We need to insist that our Senators ratify this Treaty.

**'HIROSHIMA - NAGASAKI
NEVER
AGAIN'**

Join us for a minute or an hour • Banners & Signs Welcome
