

What the NPT Prep Com 2019 means to me

Anabel Dwyer, May 4, 2019

A global transition to “sustainable well-being”
Is in the works “carbon-free”
“Greta Thunberg, 2018-19 (School Strike for Climate)
the new Bertha von Suttner 1905 “Lay Down Your Arms”)
with yes “nuclear free”
understanding
the “environmentally and humanly catastrophic”
“menace” of “nuclear weapons” and
“dangerous and obsolete fossil fuel and nuclear systems”
And yes TPNW provisions for
“cooperation” “assistance” “remediation”
Working because the “nuclear and war nonsense” are
“incompatible with respect for the right to life” and
Violate the UN Charter Art. 2.4; NPT Article 6 and ICJ Opinion
We're "grass-roots organizing for a decent future"
Implementing “basic rights for all”
(excellent schools, health care, clean air, water, soils solar cells on every roof)“
available cash = US’s \$100,000 per minute” on nuclear weapons
“spending our lives and resources” for “sustainable well-being”
“In beauty we walk”
