17:12:08 From Liberato Bautista to All panelists : Education about the folly of nuclear weapons—its imagination, its development, and deployment—must be part of education work from basic primary all the way to tertiary and adult education. Let's add this in our action as we commemorate today the International Day of Education. See a segment I cosigned yesterday: <http://bit.ly/3il6B09>

17:12:27 From Jessica B to All panelists : Jessica from, NJ USA

17:12:30 From Ann Frisch to Everyone : Good morning. I am Ann Frisch, Rotary Action Group for Peace subcommittee on nuclear weapons education. Rotary has a million plus members all over the world. Currently we are working in Russia, India, Pakistan, US, Canada, Bangladesh, and more. We encourage civil society members to reach out to Rotary Clubs around the world (there is one in your community). They are eager to hear your message about nuclear abolition. We support and engage Rotary Clubs in learning about the peril of nuclear weapons and the opportunities we have now to abolish every last nuclear weapons with the Treaty on the Prohibition of Nuclear Weapons.

17:12:37 From Ann Frisch to Everyone : afrisch09@gmail.com

17:13:18 From Maja Groff to All panelists : Maja Groff from the Global Governance Forum <https://globalgovernanceforum.org/> and Leiden University, Faculty of Governance and Global Affairs

17:13:28 From Maja Groff to All panelists : Congratulations on this event

17:14:09 From Geoff Holland to All panelists : Thank you!

17:14:12 From Chigumbara Adeoyele to All panelists : Excellent speech Madam

17:16:00 From Jean Stevens to All panelists : Thank you Ann with your message regarding Rotary and its rare affiliation with the UN. This is such an important session with the Russian powerful message of Tatiana Valovaya. I pray that we find peace and abolition of nukes in 2021!

17:16:09 From Cherrill Spencer to All panelists : Cherrill Spencer, Palo Alto, CA, USA. Member of Women's International League of Peace and Freedom (WILPF) US section

17:16:22 From James Ranney to All panelists : There is a missing ingredient in discussions about abolishing nuclear weapons. The reason is that in order to abolish nuclear weapons we will, as a practical matter, need to abolish war. And in order to do that, we will need to adopt compulsory international dispute resolution. For a book re how that might occur, see James Taylor Ranney, World Peace Through Law: Replacing War With the Global Rule of Law (Routledge 2018).

17:17:47 From Tomoko Aikawa to All panelists : Hola Maria Fernanda! Que hermosa! y me gusta esa pintura! Saludos desde Buenos Aires, Tomoko Aikawa Fundación Sadako
<https://www.facebook.com/fundacionsadako> Embajadora de Hiroshima por la Paz

17:19:01 From Grant Donohue to All panelists : Acknowledging Gadigal land , on Survival Day , Sydney , Australia. Best wishes to all . No nukes .

17:19:01 From Felipe Martins to Everyone : This meeting today is crucial for global action against nuclear weapons. I'm happy to be part of it today.

Felipe Martins - Brazil

17:19:10 From Tomas Nordberg to Everyone : The Russian nuclear arsenal is even larger

17:19:38 From Tomoko Aikawa to All panelists : Exactly it is very important to repeat why -- from Hiroshima people do not want nobody in the world suffer from the same cause. Thank you very much for all efforts and for all in the world

17:19:40 From Grant Donohue to Everyone : Acknowledging Gadigal land , on Survival Day , Sydney , Australia. Best wishes to all . No nukes .

17:20:01 From Vidyarthi Nanduri to Everyone : ANO RANEEYAAN –MAHATO MAHEEYAAN- Atomic scale to cosmic Scale –ignorance leads to chaotic state and Minds in conflicts. United conscious Wisdom Council helps Enlightened Spirit-Human being sensitive index –Vedas knowledge base Cosmology vedas

17:20:59 From Julie Ward to Everyone : Julie Ward from UK, former MEP, co-author of the European Parliament's resolution supporting the UN process in Oct 2016. I am a director of CND UK & PNND member

17:21:15 From Tomoko Aikawa to All panelists : Es la razón por la cual tramitamos el corazón de Hiroshima directamente en español por favor ayudenos para hacerles llegar las voces de Hiroshima al mundo . sadakoar2020@gmail.com

17:22:10 From Hazel Roberts to Everyone : Greetings from Australia! In our country we obviously need to keep working hard to convince our government to sign the Treaty on the Prohibition of Nuclear Weapons!!

17:22:12 From Cherry Wongu to All panelists : hello from UNAUtah Cherry Wong

17:22:52 From Alyn Ware to Everyone : Move the Nuclear Weapons Money is a global campaign to cut nuclear weapons budgets and end investments in nuclear weapons industry and shifting these to better purposes www.nuclearweaponsmoney.org

17:23:52 From John Hallam to All panelists : Abolition 2000 on nuclear risk reduction:

17:24:01 From John Hallam to All panelists :
<http://www.abolition2000.org/en/news/2020/12/25/usa-president-elect-biden-urged-to-take-action-on-nuclear-risk-reduction-and-disarmament/>

17:24:08 From Jessica Wheeler to All panelists : Greetings from Scotland on Burn's Night.

17:24:16 From Dr .Vladimir Kozin (MGIMO, Moscow) to All panelists : Correction note^^ The Russian nuclear (N.)arsenal is not larger than that of the USA. Russia does not have 14 reasons for using N. weapons like the USA has specified in the 2018 NPR under the Trump Administration. The USSR and Russia have never used N. weapons against any country as the USA has done in 1945.Vladimir Kozin (vladimir.kozin.mgimo@yandex.ru)

17:25:30 From Julie Ward to Everyone : Thank you for highlighting the gender perspective

17:26:00 From Chigumbara Adeoyele to All panelists : Africa and Latin America are 2 continents without nuclear weapons

17:26:13 From carlo trezza to All panelists : the us should disarm unilaterally ?

17:27:18 From Bill Kidd MSP to Everyone : Hi All, greetings from Scotland, where the Scottish Government, Scottish Parliament and Scottish People want to see the removal of Trident nuclear weapons as a step towards a nuclear weapons free world. All best wishes, Bill Kidd MSP (Co-President of PNND).

17:27:51 From Anne Baring to Everyone : I think the inclusion of women in conflict resolution and in government in general is absolutely essential and an urgent issue.

17:28:22 From Dr .Vladimir Kozin (MGIMO, Moscow) to Everyone : :Russia does not have N. capabilities deployed outside of its territory like the USA does. Moscow does not have the "extended N. deterrence" and : "launch-on warning" concepts in its N. strategy as the USA still has. Dr. Vladimir Kozin.

17:29:04 From Chigumbara Adeoyele to All panelists : every nuclear country have their own justifications

17:29:40 From Jessica B to All panelists : Thanking you for including Women in the conversation with reducing Conflict, Sustainability in Peace and Security Agenda.

17:30:24 From Yosef Ammon Hennacy DARM to Everyone : Amen on the gender issues, Ms. Espinosa!!!!

17:30:48 From James Ranney to Everyone : Very true.

17:30:56 From Earl Turcotte to Everyone : With respect, the world may not survive until 2145. We need to aim higher and act as though another nuclear event were imminent. Earl Turcotte, Canadian Network to Abolish Nuclear Weapons

17:31:08 From Geoff Holland to All panelists : Thank you Maria

17:31:08 From Chigumbara Adeoyele to All panelists : Madam Maria very good points - specially on role of women

17:31:18 From Simonetta Costanzo Pittaluga to All panelists : Lovely Ms. Espinosa, I will share widely your intervention!

17:31:25 From Tomas Nordberg to Everyone : 2045

17:31:28 From Cherrill Spencer to All panelists : The date goal is 2045 not 2145

17:31:35 From Jasminka Bajlo to All panelists : Excellent overview. All has been covered in this presentation. Congratulations

17:31:51 From Moyra Jean to Everyone : The so called RAF Menwith Hill, is the American National Security Base (C31) base, in Europe. As an American Command, Control, Communications and Intelligence base, it plays a crucial part in enabling the nuclear warfare programme to exist.

17:32:18 From Earl Turcotte to Everyone : Russia certainly has nuclear weapons deployed elsewhere, on nuclear armed submarines. I believe all NWS do.

17:32:45 From Chigumbara Adeoyele to All panelists : Things will change only if USA decides to change. Everything else is a reaction

17:32:58 From Anne Baring to Everyone : I agree that 2145 is too late a date. We may not have that much time as the pressures of climate change impact the world much sooner than this date.

17:33:05 From Joan Russow to All panelists : Could you please comment of the potential possibility of effectively using the ICJ and ICC now that the UN Treaty is in force

17:33:16 From Tomas Nordberg to Everyone : It's not 2145, it's 2045

17:33:25 From Vidyadhi Nanduri to Everyone : Intellectually hollowed societies have less future-leave alone promoting Chaotic state-weather warfare-Biological Warfare. Conscious Wisdom Council at global level -Immediate necessity

17:33:37 From Erica Panek to All panelists : I think the year is 2045 which still seems too late

17:33:54 From Anne Baring to Everyone : Sorry about the wrong date.

17:34:21 From Dr .Vladimir Kozin (MGIMO, Moscow) to Everyone : Many international and regional NGOs have tabled in 2020 the "Global Appeal to Nine Nuclear Governments" urging them to eliminate all N. weapons by August 6th, 2045 or earlier (available: actionnetwork.org/petitions...)._The appeal has been signed by today 12800 individuals and NGOs. Dr. Vladimir Kozin.

17:34:52 From Earl Turcotte to Everyone : Yes, sorry. I meant 2045 as well. 24 years is much too long. Earl

17:34:57 From Erica Panek to All panelists : Thank you for that info

17:35:08 From Tomas Nordberg to Everyone : Maybe it will take 24 and a half years

17:35:50 From Tomas Nordberg to Everyone : First a commitment needs to be secured to disarm

17:35:53 From Maria Fernanda Espinosa to Everyone : Apologies! I think I involuntarily said 2145. I meant 2045! And we should disarm before!

17:36:16 From Erica Panek to All panelists : Hope not tomorrow wouldn't be too soon

17:36:33 From Peter Rickwood to All panelists : I was in a rush when I entered Gumpoldskirchen, Austria, without my name or my organization's. Peter Rickwood, Atomic Reporters here. We are a Canadian not for profit operating from the Vienna area supporting journalists, professional and citizen bring more knowledge to covering the nuclear file. [www. atomicreporters.com](http://www.atomicreporters.com)

17:36:37 From Tomas Nordberg to Everyone : The TPNW provides a framework for this process

17:38:01 From John Hallam to All panelists : Add to Randy's list the reiteration of the Reagan-Gorbachev statement that'A Nuclear War cannot be won and must never be fought'.

17:39:07 From John Hallam to Everyone : Add to Randy's list the reiteration of the Reagan-Gorbachev statement that'A Nuclear War cannot be won and must never be fought'.

17:39:48 From Cindy Carter to Everyone : how do I get the Berlin time converted to US time, I am late because I don't know the conversion times

17:39:52 From Tomas Nordberg to Everyone : Imagine if President Biden would declare something to that effect

17:40:25 From Joan Russow to All panelists : could you please comment on the potential role of regional governments in lobbying federal senior governments particularly in non-nuclear weapon state members of NATO

17:40:57 From Laura Rosales to All panelists : Cindy, Berlin is 6 hours behind Eastern standard time

17:41:18 From Maria Sotiropoulou to All panelists : We should not care about dates but only about how we could pass the message to the future generations. Thank you Randy for remind us how much we have achieved We shall work till the end.

17:41:29 From Dr .Vladimir Kozin (MGIMO, Moscow) to Everyone : The most easiest task for the UNO is to urge the USA and Russia, and the rest 7 N. nations to take up a commitment on NFU or

NFS (no first strike)of N. weapons. Unfortunately, Donald Trump's Administration refused to repeat this notion (articulated by Reagan and Gorbachev).

17:41:43 From Tomoko Aikawa to All panelists : Very Good Randy!!

17:42:21 From John Hallam to Everyone : Yes lets do something with this idea off a nuke disarmament football.

17:42:27 From Patricia Murphy to Everyone : Why not a disarmament BOUQUET!

17:42:29 From Chigumbara Adeoyele to All panelists : Thank you for the strong message

17:42:30 From Erika Simpson to All panelists : The Disarmament Football by Randy Riddell with contributions from...great idea!

17:42:50 From Jasminka Bajlo to All panelists : Well done, Randy

17:42:55 From Sylvia Boyes to All panelists : I am late because I thought it started 5pm

17:43:01 From Rosemarie Pace to Everyone : Cindy, Berlin is six hours later than EST in the U.S. If you're not in the EST zone, you can adjust to CST, MST, or PST.

17:43:04 From Jasminka Bajlo to All panelists : Mayors for Peace Croatia

17:43:37 From Robin Collins to Everyone :

<https://www.timeanddate.com/worldclock/converter.html>

17:44:43 From Cindy Carter to Everyone : thank you that would be 5 hours in CST

17:45:04 From Dr .Vladimir Kozin (MGIMO, Moscow) to Everyone : The Biden Administration has to reconsider the rule and practice existing in the USA when only person, namely, the US President, has the right to use N. weapons individually, without the approval of the US Congress. Dr. Vladimir Kozin

17:45:36 From Mary Yelenick to Everyone : We also, initially, should challenge the American "football" moniker. This is no competitive game. Alice Slater suggests calling it the nuclear "death ball."

17:45:54 From Tomas Nordberg to Everyone : Great points, Dr! I think that the argument should be made that the fact that nuclear weapons are illegal precludes resorting to these dreadful weapons even in situations of self-defence as defined by Article 51 in the UN Charter

17:46:03 From Cindy Carter to Everyone : I agree, great point

17:46:18 From Rosemarie Pace to Everyone : No, Cindy, it's 7 hours difference between CST and Berlin.

17:46:26 From Tomoko Aikawa to All panelists : Congratulatlions Kehkashan basu

17:46:37 From John Hallam to Everyone : The Abolition 2000 letter on risk reduction tackles the issue of nuclear (war) decision making/

17:46:39 From Chigumbara Adeoyele to All panelists : Agree - it is all about profit

17:46:45 From John Hallam to Everyone :

<http://www.abolition2000.org/en/news/2020/12/25/usa-president-elect-biden-urged-to-take-action-on-nuclear-risk-reduction-and-disarmament/>

17:47:11 From Ann Frisch to Everyone : Please consider the psychological impact on people of a goal of 2045. Oh, we have time! Most of us will be dead if not by nuclear weapon, or covid, by a natural death. Let's talk about next two or three years. It is a matter of creating trust, engaging the Golden Rule, or better yet We close the divide because we know to put our future first, we must first put our differences aside.

We lay down our arms so we can reach out our arms to one another.

We seek harm to none and harmony for all.

17:47:29 From Cindy Carter to Everyone : y hrs?? thanks, now you see how confused I am

17:47:39 From Cindy Carter to Everyone : I mean 7 hours

17:48:21 From John Hallam to Everyone : Use the World Clock time converter.

17:48:22 From Joan Russow to All panelists : Need to redefine "security" as "common security" not "militarized security" including

17:48:46 From Cindy Carter to Everyone : thanks

17:49:10 From Chigumbara Adeoyele to All panelists : thank you for linking the environment to this issue

17:49:34 From Robin Collins to Everyone : in my view the "end date" is less important than prioritizing steps, starting with the most dangerous, then the next possible (so start with ending LOW/LUA, then de-alerting/ending hair trigger, then NFU/sole purpose. The point here is that once any of these is put into place, the rest becomes far more possible because of political momentum.

17:50:16 From Tomoko Aikawa to All panelists : Education for peace !

<https://www.instagram.com/fundacionsadako/>

17:50:24 From Cindy Carter to Everyone : and childhood poverty rates rise

17:50:42 From Cindy Carter to Everyone : but nuclear warheads are more important

17:50:43 From James Ranney to Everyone : Yes, EDUCATION is key. In order to abolish nuclear weapons & abolish war, we will need fundamental social and political change. Fundamental social and political change requires attitudinal change. Attitudinal change requires education, educating ourselves and others.

17:50:47 From Robin Collins to Everyone : Remember that Reagan-Gorbachev event made disarmament "imminent". So let's not worry about which decade, let's get moving on highest risks.

17:52:06 From Cindy Carter to Everyone : how do we get this education into the school curriculums?

17:52:15 From Chigumbara Adeoyele to All panelists : education gives power . thank you

17:52:17 From Tomas Nordberg to Everyone : The Biden Administration should propose bilateral negotiations with Russia to reduce the number of nuclear warheads. And it should join the TPNW together with the other NWS in order to fulfill the promises made in Art 6 of the NPT to commence negotiations leading to complete disarmament.

17:52:37 From Julie Ward to Everyone : Very inspiring young speaker. She's right young people must be included as decision makers

17:52:42 From Liberato Bautista to Everyone : @James Rainey: Can't agree with you more on the role of education in the abolition of nuclear weapons. See my statement here: <http://bit.ly/3iI6B09>

17:52:51 From Joan Russow to All panelists : could leaders be reminded of what was agreed to at habitat i

17:53:12 From Gandhi Trust to All panelists : powerful speech Ms Kehkashan Basu. God bless!!!

17:53:39 From Chigumbara Adeoyele to All panelists : what a powerful speaker - this is how youth feel

17:53:39 From Rosemarie Pace to Everyone : Absolutely yes to education, but that is long-term. We also need immediate action that is economic, political, and social.

17:54:03 From Anne Baring to Everyone : Brilliant and inspiring presentation from Kenkashan.

17:54:03 From Mark Harrison to All panelists : Powerful presentation

17:54:09 From Simonetta Costanzo Pittaluga to All panelists : So grateful for your intervention, Education is basic for every change!!

17:54:09 From Joan Russow to All panelists : at habitat I all states agreed in 1976 to the following:

17:54:29 From Julie Ward to Everyone : We must couple environmental action with nuclear disarmament and alternatives to nuclear power which is neither cheap, green or sustainable

17:55:06 From Robin Collins to Everyone : keep nuclear power separate from nuclear weapon campaign, as does NPT and TPNW

17:55:17 From Joan Russow to All panelists : at habit I all states agreed

17:55:39 From Monica Willard to All panelists : Enjoying this program very much. thank you for marking the first Resolution as well as TPNW.

17:55:48 From Vidyadhi Nanduri to Everyone : The Magnetic Fields and Sensitive Index around human being is ignored by all. Extreme nuclear Testing shows by data –Horizontal magnetic fields gets distorted to Vertical Magnetic Fields- Under extreme stress –Los Alamos Lab.

Upon Noble Cause : Human-Being, Environment, Divine Nature and Harmony

17:56:13 From Simonetta Costanzo Pittaluga to All panelists : BUT we educate in a violence based culture.... We also need to educate in Nonviolent Action to resolve conflicts....

17:57:09 From Chigumbara Adeoyele to All panelists : Kekashan do you have projects in Nigeria?

17:57:19 From Linda Walker to All panelists : No, don 't keep them separate! Julie ward is right. We must al campaign against nuclear power and for safe alternatives. Nuclear power and weapo0ns are inextricably linked and should never have been thought of as separate.

17:57:19 From Tomas Nordberg to Everyone : Nuclear power and nuclear weapons are Siamese twins though

17:57:22 From Bassiratou IDRISOU TRAORÉ to All panelists : bienvenue VANDA de Bassiratou from Lomé

17:57:39 From Rosemarie Pace to Everyone : We must also couple nuclear abolition to religious faith teachings that are professed by a vast proportion of humanity worldwide. Religious faiths must address the issue of nuclear abolition as pro-life, pro-divine creation, pro-morality and spirituality.

17:57:51 From Erika Simpson to All panelists : Robin, don't you think NPT article 4 that recommends nuclear energy for all is a big problem and we must therefore deal with the problems from nuclear power including its waste as it is not clean.

17:57:57 From Dr .Vladimir Kozin (MGIMO, Moscow) to Everyone : I doubt that the Biden Administration will be able to ask Moscow to conduct a bilateral talks on the Newest START that might set up further reductions in the SOA (the next START or START-4 after the New START expires).

17:58:23 From Tomas Nordberg to Everyone : Prolong the current START

17:58:42 From Jacqueline Cabasso to All panelists : You may wish to keep nuclear weapon and nuclear power separate, but they are technically and scientifically inseparable. Nuclear power powers the bomb.

17:59:26 From Dr .Vladimir Kozin (MGIMO, Moscow) to Everyone : Prolonging the New START is not a problem. The practical issue is: under what conditions?

18:00:14 From Julie Ward to Everyone : @Tomas 👍

18:01:09 From Esther Castain to Everyone : Rosemarie, humanitarian consequences and the human right to dignity could very well unite the couplings of nuclear abolition and faith communities.

18:01:31 From Robin Collins to Everyone : on nuclear power, just this point: there are many states who can be won over to nuclear weapon abolition but who want nuclear power. That is an unfortunate fact for some. If we want to maximize our audience, we must keep the power-energy campaigns separate. That is not to say to drop your anti-nuclear energy efforts. Just understand the distinctions. This is an ongoing and repetitive debate. NPT Article 4 is very clear. Push "renewables"; that's safer strategy in the nuclear abolition campaign talking points.

18:01:41 From Dr .Vladimir Kozin (MGIMO, Moscow) to Everyone : The second issue related to the extension of the New Start is: for how long - two years or five years?

18:01:59 From Geoff Holland to All panelists : Thanks Vanda!

18:02:01 From Ann Frisch to Everyone : The nuclear industry could not pass GO without massive subsidies from the taxpayers, but that aside, the issues cannot be separated; ask the Marshalese, the

downwinders Hanford and more, and Minnesota where children got thyroid cancer from the atmospheric I 131 from Nevada testing. Agreed: full speed ahead on abolition. But the world will be tempting us with new nuclear weapons, new testing (alias when you bomb your own country). uranium mines, we must be prepared to counter every step.

18:03:18 From Bill Kidd MSP to Everyone : Thank you very much for this clear and coherent explanation Vanda - it'll gather real support internationally. All the best, Bill

18:04:07 From Vanda Proskova to Bill Kidd MSP and all panelists : Thank you Bill for joining us today!

18:04:17 From Tomoko Aikawa to Everyone : I really impressed with all of your speeches Thank you very much Knowing about Hiroshima is thinking in our future!!

<https://www.instagram.com/fundacionsadako/>

18:06:18 From Julie Ward to Everyone : No more Chernobyls or Fukushimas - I live near Sellafield in UK - nuclear power negatively affects women's & child health disproportionately. I don't see how we can couple peace/security with environmental sustainability unless we also consider the way nuclear power with all its toxicity & risks to life/health is part of our discussion. Read Linda Penzt-Gunter @ Beyond Nuclear

18:06:21 From Ann Frisch to Everyone : Respect those who are concerned about the new nuclear highly radioactive dumps that will by necessity greatly expand the shipment of materials on our highways. One accident could take out a water supply for a community for the next gazillion years. We are partners, not opponents. Just because the NPT non nuclear nations got the "right" to "peaceful" nuclear energy does not mean that we should ignore it; just because the TPNW does not take issue with it, does not mean that it is not a present peril. Abolition will go a long way to ending this gift to poor countries as a fake renewable.

18:06:26 From Alyn Ware to Vanda Proskova(Direct Message) : I decided against the poll as there was confusion already on dates in the chat, nad it appears as though such a poll might distract and confuse, unless we had a lot more time

18:07:01 From Vanda Proskova to Alyn Ware(Direct Message) : roger...

18:07:09 From Robin Collins to Everyone : TPNW defers to NPT, and therefore Article 4.

18:07:15 From Erica Panek to All panelists : Just to pick up the thread from before I don't think we can separate nuclear arms production from nuclear power generation. I do agree they all pollute especially through the mining process. But we should probably think about keeping what we have

and use it and not build anymore until we can truly do it wisely. I'm not a scientist but since there is no safe way to dispose of nuclear waste can we dismantle weapons and use them for power since unfortunately it is already here.

18:07:29 From Ann Frisch to Everyone : agreed

18:08:33 From Ann Frisch to Everyone : @Julia Ward, glad to discuss afrisch09@gmail.com

18:09:11 From Vanessa Lanteigne to Everyone : Agreed Ann! People believe nuclear energy is green- it is not. From the extraction to creation and maintenance of rods. But, even if it was, trading carbon for radiation risk and cancer is not a solution. It is just another problem.

18:09:24 From Tomas Nordberg to Everyone : I think five years is to be preferred, dr

18:10:12 From Tomas Nordberg to Everyone : And the nuclear waste ...

18:11:37 From Tomoko Aikawa to Everyone : Es la razón por la cual tramitamos el corazón de Hiroshima directamente en español por favor ayudenos para hacerles llegar las voces de Hiroshima al mundo . sadakoar2020@gmail.com

18:11:42 From Jessica B to All panelists : We definitely need to get to the fundamentals of the focus on human nature and discretion in making decisions in positions of power. The decisions behind nuclear weapon development is the problem more than the weapons itself. The intentions of development and use. We must focus on the conflict resolution in the appeal to leaders.-Jessica Broadnax

18:12:03 From Cindy Carter to Everyone : In the USA the republicans want EVERYONE to carry a gun/weapon, for security, the GOP brain washes people into thinking that weapons including NUKES are what keep us safe, how do we OVERCOME that ignorance

18:12:11 From Tomoko Aikawa to Everyone : A small Budget for Education for Peace Culture we are a littele more in peace .

18:12:40 From Tomas Nordberg to Everyone : We need to teach and practice non-violence as articulated by MLK, a great proponent of nuclear disarmament

18:12:49 From Tomas Nordberg to Everyone : articulated, sorry

18:13:01 From Dr .Vladimir Kozin (MGIMO, Moscow) to Everyone : Yes, 5 years extension of the New START till 2026 is the most rational way.

18:14:59 From Robin Collins to Everyone : the argument against nuclear weapons isn't that nuclear deterrence doesn't work, but that the weapon can't be used.

18:15:00 From Tomas Nordberg to Everyone : Insurance companies too

18:15:10 From John Hallam to Everyone : The question I would have asked on nuke risk reduction seems to have been asked by someone else. I would have added a reference to the Reagan-Gorbachev statement that a nuclear war cannot be won and must never be fought.

18:15:15 From Julie Ward to Everyone : Tomas - we have a Shadow Minister of Peace Disarmament in UK (Labour)

18:15:17 From carlo trezza to All panelists : alyn from carlo trezza. how many MPs are connected to this event?

18:15:40 From Tomas Nordberg to Everyone : Fabian Hamilton?

18:15:53 From Erika Simpson to Everyone : Subject: link to Fridays at 7 pm Zoom discussions on Nuclear Power & Waste and Master List as of Jan 22 2021

<https://westernuniversity.zoom.us/j/99854826966>

Nuclear Waste Friday 7 PM EST meetings until Feb 19, 2021 (7 meetings so if you missed two of them, no prob;em; see you next Friday!)

Description

Informal meeting of folks interested in talking about Nuclear Power (e.g. nuclear waste) held every Friday at 7 pm EST (i.e. 6 pm Central, 5 pm Mountain Time, 4 pm Pacific Time, 8 pm in the Maritimes). You do not need a passcode but there is a waiting room. You must be recognized by Erika Simpson to enter the discussion. If you phone in, you must be a recognized member of the group. This discussion is not taped by the hostess. The Chat function is enabled and you can save the Chat discussion. If you have issues or problems, you can phone Erika Simpson during the meeting at these numbers: 1(519) 520-****. I am sorry but it would be in the middle of the night in Europe!

18:17:16 From John Hallam to Everyone : Banda mentions that nuke weapons are not given coverage in courses on international relations. This is a serious gap that must be filled.

18:18:53 From Robin Collins to Everyone : some may find this from Group of 78 on shifting to common security of interest: <https://group78.org/getting-to-nuclear-zero-building-common-security-for-a-post-mad-world-update/>

18:18:59 From Dr .Vladimir Kozin (MGIMO, Moscow) to Everyone : If the New START is extended till 2026 the US tactical N. weapons should be withdrawn from Europe and Turkey and the US MDS (interceptors) should be limited geographically and numerically. Plus: current N. strategy of the USA should be transformed into "a defensive N. deterrence that threatens nobody".

18:19:45 From Erika Simpson to Everyone : Zoom link to Fridays at 5 pm meetings on new Treaty on the Prohibition of Nuclear Weapons (TPNW) <https://westernuniversity.zoom.us/j/94270412357>
We have a lot to celebrate and talk about in an informal atmosphere on Zoom so tonight so we are meeting on Fridays at 5 pm (EST). Here's the link so I have set up a waiting room (no password) Erika

Simpson is inviting you to a scheduled Zoom meeting. So far we have hosted many folks including Jonathan Granoff from Washington. Later on Friday night, some of the same people like Dr. Michel Duguay, Pierre Jasmin (Quebec) and about 25 other people including Dr. Gordon Edwards talk about Nuclear Power and Nuclear Waste as the Canadian government wants to bury it all close to the Great Lakes. If you have questions, email me, Prof. Erika Simpson simpson@uwo.ca

Topic: TPNW Action Fridays at 5 pm Meetings - informal discussion

Time: Jan 15, 2021 05:00 PM Eastern Time (US and Canada)

Every week on Fri, until Feb 19, 2021, 6 occurrence(s)

Jan 15, 2021 05:00 PM

18:19:53 From Julie Ward to Everyone : Yes Tomas - it is Fabian Hamilton.

18:19:57 From Alyn Ware to Vanda Proskova(Direct Message) : I might finish with the poll ----- how optimistic can we be and by when might we be able to eliminate nuclear weapons... what do you think?

18:20:27 From Robin Collins to Everyone : good points by Randy here

18:21:02 From Julie Ward to Everyone : Re international law PGA members can progress

<https://www.pgaction.org/>

18:21:43 From Vanda Proskova to Alyn Ware(Direct Message) : okay that sounds good! I'm a fan of polls... if we frame it as "how optimistic we can be..."

18:22:50 From Jonathan Down to All panelists : Wonderful new resource on GG Lopez-Claros, A., Dahl, A., & Groff, M. (2020). Global Governance and the Emergence of Global Institutions for the 21st Century. Cambridge: Cambridge University Press. doi:10.1017/9781108569293

18:23:48 From Cherrill Spencer to Everyone : To let you know about an ongoing effort to educate US university students about nuclear weapons - called the Nuclear Threat Reduction Initiative, see here : <https://www.aps.org/policy/nuclear/index.cfm>

18:24:45 From Dr .Vladimir Kozin (MGIMO, Moscow) to Everyone : To introduce more international law into N. disarmament is fine. But what to do with some steps that have led to withdrawal of the USA from a number of the arms control accords? during Donald Trump's presidency? Dr. Vladimir Kozin, Moscow

18:25:53 From Joan Russow to All panelists : "In 1976 at Habitat 1, member states of the United Nations affirmed the following in relation to the military budget: "The waste and misuse of resources in war and armaments should be prevented. All countries should make a firm commitment to promote general and complete disarmament under strict and effective international control, in particular in the field of nuclear disarmament. Part of the resources thus released should be utilized so as to achieve a better quality of life for humanity and particularly the peoples of developing countries" (II, 12 Habitat 1).

18:26:02 From Tomoko Aikawa to Everyone : Peace Culture Education !!!

18:26:25 From Mark Harrison to All panelists : There was a group Educators for Peace

18:26:26 From John Hallam to Everyone : It's 4.25am here in Sydney. Think I have to get some sleep. Been a lovely and instructive webinar.

18:27:57 From Kasha Slavner to Everyone : we're hoping to help to bridge these issues with our upcoming positive impact documentary <https://www.1point5degreesofpeace.com/> by genZ filmmaker Kasha Sequoia Slavner - theglobalsunriseproject@gmail.com

18:28:16 From Cindy Carter to Everyone : Ms Basu is brilliant!

18:28:45 From Gandhi Trust to All panelists : yes brilliant answer

18:29:02 From Martin Tiller to All panelists : "Peace literacy" is a great concept - see NAPF

18:29:16 From Tomoko Aikawa to Everyone : Around On March 21st, we are going to held a Haiku for peace on fall to make awareness in peace. <https://www.instagram.com/fundacionsadako/>

18:30:15 From Dr .Vladimir Kozin (MGIMO, Moscow) to Everyone : There are plenty of literature in English on nuclear arms and nuclear arms control. It is easily available for everyone.

18:30:43 From Cherrill Spencer to Everyone : A video describing the Nuclear Threat Reduction program , directed to physicists, can be watched here:
<https://www.youtube.com/watch?v=9tffRTEBqfo> lasts 37 minutes

18:31:16 From Jessica B to All panelists : Mentoring is important

18:32:07 From Cindy Carter to Everyone : thank you again for this Alyn, these are great webinars

18:32:22 From Robin Collins to Everyone : thx to all contributors
