Discussion

Youth Fusion Elders

'Elder – a person having authority because of age and experience'

Merriam-Webster Dictionary

Youth Fusion highlights the importance of inter-generational dialogue, and of youth learning from the experience of those who have been long-time and effective leaders in the peace and disarmament fields. In this regard, we recognise and affirm **Youth Fusion Elders**, those we hold in high esteem, and whose leadership, accomplishments, ideas and wisdom we highlight online and through our activities.

Youth Fusion

Youth Fusion, the youth network of Abolition 2000, is a world-wide platform for young individuals and organizations in the field of nuclear disarmament, risk-reduction and non-proliferation. Youth Fusion focuses on youth action and intergenerational dialogue, building on the links between disarmament, peace, climate action, sustainable development and building back better from the pandemic
