Outline:

This online event will present and discuss Fulfil the NPT: From nuclear threat to human security, an *Open Letter to States Parties to the NPT* calling on them to:

- End the nuclear arms race and stop all production of nuclear weapons;
- Phase out the role of nuclear weapons in security doctrines starting with no-first-use policies;
- Commit to a timeframe for the elimination of nuclear weapons;
- Shift budgets and public investments from the nuclear weapons industry to instead support public health, climate stabilization and sustainable development.

The event will also include the release of a civil society working paper on **no-first-use**.
